

Birth Time Verification Report

I. **Basic Information:**

Name: [REDACTED]

Date of Birth: 15th December 19[REDACTED]

Unrectified time of birth: The time of birth is not known. The [REDACTED] the time of birth to be around [REDACTED] 00 hours. The [REDACTED] the time of birth to be around [REDACTED] 00 hours.

Place of Birth: [REDACTED], Karnataka

Country: India

Time Zone: **UTC/GMT (+) 5 hour 30 minutes** was the time zone for the place of birth on 15th December 19[REDACTED]

Geographical Coordinates

Latitude: [REDACTED]° 28' 00" (North)

Longitude: 75° 55' 00" (East)

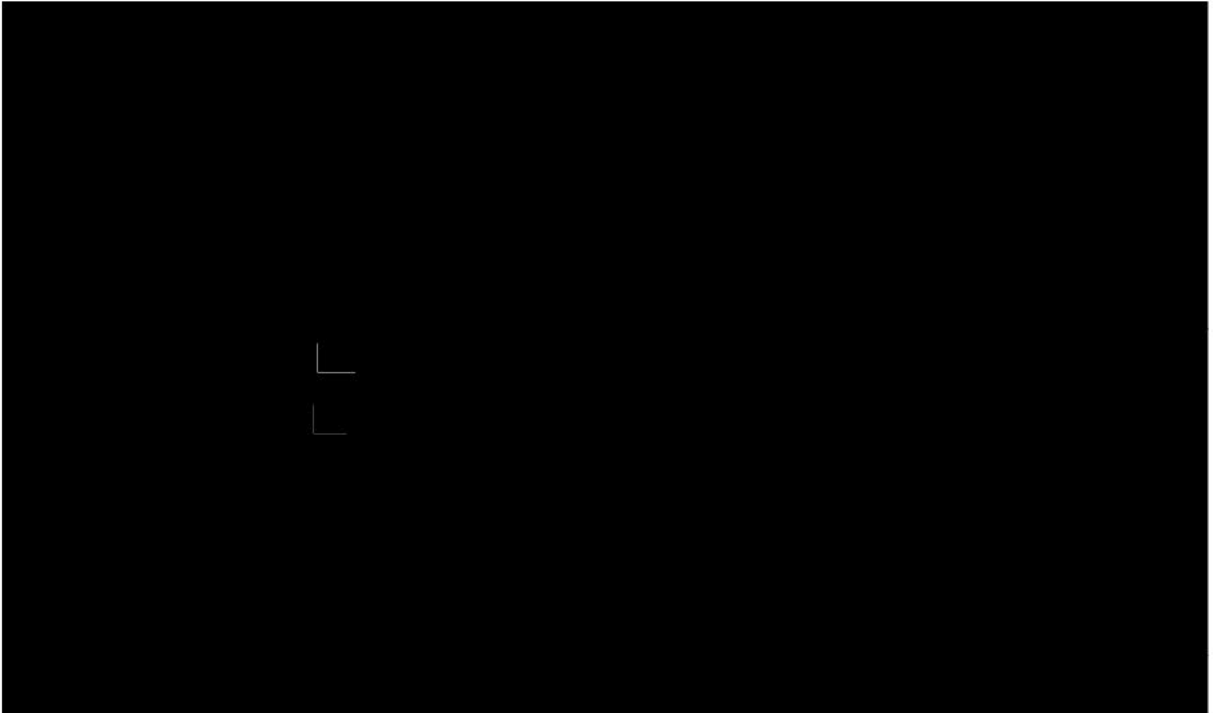

II. **Birth Time Correction:**

Many points of time, around [REDACTED] 00 hours and [REDACTED] 00 hours, were examined to verify the time of birth.

When correcting the time of birth, the transit Moon or the Ruling Planets were in the Sign of [REDACTED], the Star of [REDACTED] the Sub of Rahu and the Sub Sub of Venus.

Upon the commencement of the process of birth time verification, a few points of time showed up as the possible time of birth. Therefore, these time points were examined based on the planetary positions and shared events. When correcting the time of birth, the transit Moon or the Ruling Planets were in the Sign of [REDACTED], the Star of [REDACTED], the Sub of Rahu and the Sub Sub of Venus.

The 1200 hours birth chart

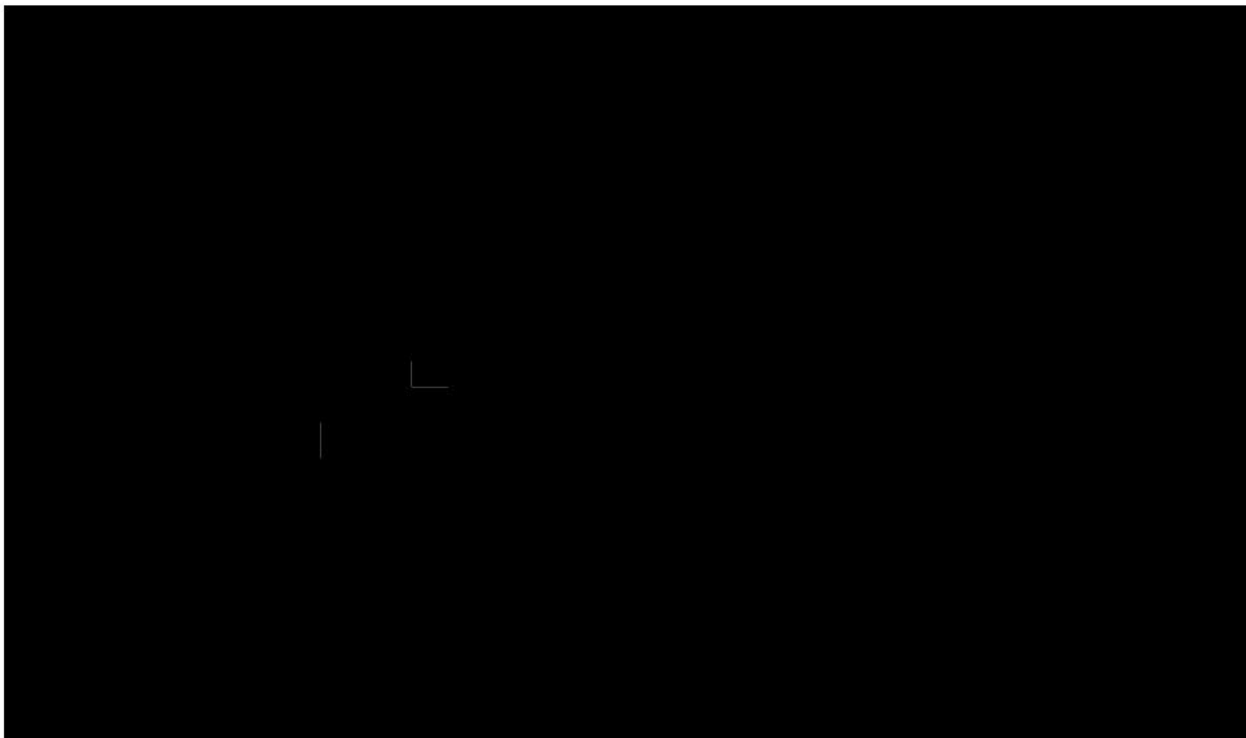

Note: Software Jagannatha Hora. Ayanamsa – Traditional Lahiri

The placement of the Lagna or the Ascendant had to be aligned with planets that matched these Ruling Planets. The Lagna placement with some of the shortlisted points of time did not match the Ruling Planets. The Lagna placement of the other shortlisted point of time was Saturn Sign, Jupiter Star, Jupiter Sub and Saturn Sub Sub.

With this placement, this time of birth appeared to be inaccurate. There was a mismatch between the Lagna Sign, Star, Sub and Sub Sub and the Ruling Planets. The shared events were not reflected in the Rasi Chart or the divisional charts - the D1, D9, and D60 charts.

The 1500 hours birth chart

Note: Software Jagannatha Hora. Ayanamsa – Traditional Lahiri

This anomaly needs to be corrected by moving the Lagna within the sign or to a different one. Changing the Lagna Sign will also involve moving the Lagna to a different Star, Sub and Sub Sub.

Since both the given time of birth, i.e. 1200 hours and 1500 hours, are incorrect, it was concluded that a full Birth Time Correction report is required to arrive at the exact time of birth.
